[Mobile Scanner & Intersection Sampling.pdf](#)

Hi Jeff,

This is what I have so far. It still has some edits to go, I think. I put a large print out of it down in the ERC on a table if you want to show him a big one. Matt hasn't gotten back to me on whether or not he's seen it. I believe that maybe the FUSRAP area has an additional little area to the west of McDonnell and north of Banshee Rd that needs to be shaded, do you know if this is right? Here are the small and large map PDFs.

Subject: Haul Road Map

Hi Holly:

I understand in Casey's absence you have been tasked with working with Matt Jefferson on a Haul Road map located in St. Louis. I have a 1:00 meeting with Karl and would like to have a copy to share. Can you send me one?

Thanks,

Jeff
